

Belfast Functional Analysis Day 2006
25 November 2006

Programme of the Meeting

- 9:30 Registration and Coffee/Tea
- 10:10 Welcome
- 10:15 **Andreas Defant (Oldenburg)**
Classical summation methods in noncommutative probability (I)
- 11:10 Coffee/Tea Break
- 11:30 **Jesus Araujo Gomez (Cantabria)**
Isometric shifts of type I
- 12:00 **Cristina Radu (Dublin)**
Polynomials on Hilbert operator spaces
- 12:30 **Rupert Levene (Belfast)**
1-hyperreflexive subspaces
- 13:00 Lunch Break
- 14:30 **Aaron Zerhusen (Purdue)**
Holomorphic embeddings of pseudoconvex domains in Banach spaces, and approximation of holomorphic functions
- 15:00 **Oscar Blasco de la Cruz (Valencia)**
Commutators of operator-valued Calderón–Zygmund type operators
- 15:30 **Yemon Choi (Newcastle)**
Cohomology problems for the analytic Wiener algebra
- 16:00 **Turowska Lyudmila (Goteborg)**
Beurling–Pollard type theorems and elementary operators
- 16:30 Coffee/Tea Break
- 17:00 **Andreas Defant (Oldenburg)**
Classical summation methods in noncommutative probability (II)
- 18:00 **End of Scientific Programme**
- 19:30 **Conference Dinner in Serai, 1 Univ Street**
